Chinese Parasol Tree

The Chinese Parasol Tree, standing next to Peace Memorial Museum, is a survivor of the atomic bombing. It was originally located about 1.3 kilometers from the hypocenter. The tree was badly damaged in the bombing and everyone thought it was dead. But in the spring of 1946, new shoots appeared. This new growth gave encouragement to the A-bomb survivors. The tree was moved to Peace Memorial Park in 1973. Seeds from this tree have been planted in places around the world.
